RISK-FIRST MARKET SIGNAL REVIEWS

# Mount Inflection: Risk-First Market Signal Reviews

Daily engine. Free Friday review. Premium / Pro deeper signal flow. Public results.

EXITS FIRST

RISK RAILS

TAIL CAPTURE

## WHAT IT IS

A founder-led signal review product built around repeatable market scans, exits-first review, and visible risk rails.

## WHO IT IS FOR

Retail traders, partners, newsletter operators, and media buyers who want process transparency instead of market noise.

## FREE / PREMIUM / PRO

Free is the Friday trust layer. Premium adds Tuesday / Friday context. Pro is the Daily Operator View.

## PUBLIC RESULTS

Results stays central: annual returns, drawdowns, growth curve, and live paper tracking for skeptical review.

## WHY FREE FRIDAY EXISTS

People can watch the process forward over time instead of accepting a claim. The system is judged week by week.

## FOUNDER-LED ENGINEERING

Built by an engineer and Mount Inflection founder with emphasis on repeatability, diagnostics, and clear boundaries.

## COMPLIANCE POSTURE

Educational only. No auto-trading, no personalized advice, no performance guarantee. Users control decisions and risk.
